

### Scrub and Polish Tight Spaces - 14"

The GP14T was born out of need for affordable compact power. Dual 1/8 HP motors spin twin heads at 500 RPM in opposing direction. The result is a very controllable polisher with a low center of gravity.

The GP14T is small enough to work on counter tops, stairs and many other applications.

#### Engineered Design:

- Compact 22.5 lbs. design.
- The 14" model is designed for use with diamond tools, mounted with pad driver (#AS003-7)
- 1/8 HP Dual Motors.
- Exclusive Mag-Lock™ Pad driver attachment system
- Durable resin cover over steel frame for reliable performance
- Quiet belt drive power
- Simple operator switch for both hand operation
- 2-piece commercial, 35 ft. (14-3) SJT easy-wrap power cord
- Wide selection of diamonds and pads
- UL / CUL Approved components for safe performance
