

### Counter Tops, Stairs, Small Spaces

The GP26 is a dual head, with 2 - 1.0 HP TEFC (Totally Enclosed Fan Cooled) AC motors driving 2 counter rotating 13 inch drivers, for ergonomically balanced operation. The floating head design promotes a higher quality result on a multitude of surfaces. This unit is designed to deliver maximum power when preparing, grinding, and/or polishing. The solution delivery system utilizes a pump, and optimized dispersement tube, in order to achieve consistent flow. The GP26 is a powerful unit that will not disappoint.
