

Floor Applicator

The SYB applicator was designed for applying all types of solutions to floors, ranging from small to medium sized areas. The ergonomic and light weight design allows for ease of application, while protecting against accidental back injuries. Each unit includes: applicator mop, storage tray, and 5 gallon bucket with valve.

- Apply solutions at 9,000 sq/ft per hour
- Dispense directly on the floor with a conveniently located valve control lever
- Eliminates dipping mops and heavy buckets
- Easy on the back
- Heavy gauge, powder coated steel frame
- Lightweight, ergonomic design
- Ball bearing caster wheels for easy maneuverability
- 5 Gallon capacity
